**FrontEnd Developer**

- The project represents data through charts.
- Use **Vue2** and **Chart**.js to build, maintain interface, optimize data rendering performance.
- Participate in requirements analysis and provide appropriate technical solutions.
- Technology: **Java, Javascript, Typescript, Vue2, Vuex, Chartjs,**
- Link/demo : **mi.bigzami.com**

### Warehouse - IIST          03/2023 - 05/2023

**Backend Developer (key member)**

- Logistics warehouse management project.
- Design, optimize database **(MySQL)**, write complex queries, manage transactions, optimize queries.
- Develop web using **PHP (Laravel)** for business modules.
- Build **RESTful API** to connect frontend - backend.
- Play the role of a **main developer**, in charge of the entire **backend** of the project.
- Participate in requirements analysis and provide appropriate technical solutions.
- Technology: **PHP, Laravel, MySQL.**

### VTV - IIST          07/2022 - 01/2023

**Backend Developer (key member)**

- VTV news website project.
- Design, optimization **(MySQL)**, transaction management, query optimization.
- Develop web using **PHP (Laravel)** for business modules.
- Play the role of a **main developer**, in charge of the entire **backend** of the project.
- Participate in requirements analysis and provide appropriate technical solutions.
- Technology: **PHP, Laravel, MySQL.**
- Link/demo : **vtv.gov.vn**

### Xaytoam - VCCorp          02/2022 - 05/2022

**Backend Developer (key member)**

- Project to find contractor and design construction.
- Design, optimization **(MySQL)**, transaction management, query optimization.
- Develop web using **PHP (Laravel)** for business modules.
- Participate in requirements analysis and provide appropriate technical solutions.
- Technology: **PHP, Laravel, Javascript, Jquery, Vue2, MySQL.**
- Link/demo : **xaytoam.vn**

### Webfly – Vccorp          08/2020 - 12/2021

**Backend Developer (key member)**

- Create websites quickly without coding, with drag and drop module features.
- Design, optimization **(MySQL)**, transaction management, query optimization.
- Develop web using **PHP (Laravel)** for business modules..
- Participate in requirements analysis and provide appropriate technical solutions.
- Technology: **PHP, Laravel, Javascript, Vue2, Jquery, MySQL.**
- Link/demo : **webfly.vn**

**Novai - Nova**                                                                                      08/2015  -  07/2020

**FullStack Developer**

- Education
- Develop web using **PHP (Laravel)** for business modules..
- Use Laravel blade template to build interface.
- Technology: **PHP, Laravel, Javascript, Jquery, MySQL**
- Link/demo : **novai.vn**
